

#### ORIGIN

USA - EMEA

#### MIXTURE

Pure  Blend

Supima organic + Long staple organic cotton

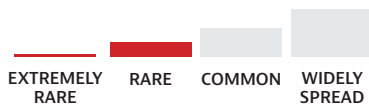

#### HARVESTING

Mechanical

#### GINNING TYPE

Roller gin (SUPIMA®) / Saw gin

#### AVAILABILITY

#### ANNUAL AVERAGE PRODUCTION

5.000/5.800 cotton bales

#### WHAT CAN YOU OBTAIN AS A CLIENT?

#### DOCUMENTS

Oritain Traceability Certification, for the complete scientific traceability from the cotton field to the yarn. If the traceable version is chosen, it is necessary to communicate the request at the time of the order.

#### EXTRA

A blend of scientifically traced organic cottons. ICA manages and controls directly the cultivation of these cottons, in collaboration with American growers, with the aim of ensuring compliance with the law, high quality standards and the transparency of the production chain.

#### EXCLUSIVITY
